

Trevijano[®]

Honest Food

**The food we like,
the way we like it.**

Honest food.

We like what we do.

We are a company from Navarra made up of people who have grown up surrounded by gardens, with respect and passion for the flavours of the earth.

We explore new recipes by mixing new ingredients continuously, but we only sell the ones that we like to eat at home.

True flavour and your personal touch.

We look for the best ingredients so you can enjoy the recipe at home and add your own final touch, which makes each dish unique.

No additives or half-truths.

We use dehydration, the oldest and most natural way of maintaining the original flavour and nutritional properties of the ingredients for several months.

Eat well, live better.

Our recipes are incredibly easy to prepare and tasty, designed so that you can take care of yourself effortlessly.

Trevijano[®]

Dehydration, the oldest and most natural form of preservation.

Nothing is added - just water is removed.

It

captures seasonal ingredients at their best.

It preserves all of the flavour of vegetables, their mineral salts and their fibre.

Easy conservation: no refrigerator is needed and it has long shelf life.

100 g of dehydrated vegetables is equal to 1 kg of fresh vegetables!

Trevijano®

- In 1996 our company was founded.
- In 2010 we started our export adventure.
- At present, our products are available in more than 30 countries worldwide.
- Ingredients: only dehydrated vegetables, cereals and spices, without any additives - not even salt is added.
- Recipes suitable for vegans and free of transgenics.
- They do not need to be kept cold.
- They last for 18 months even after they are opened.
